Piceture	**Model Number:GS-G180E (900/1800,850/1900Mhz) (GSM & PSTN dual network)**
	1.Touch keypad; Big LCD displays; Internal antenna
	2.GSM+PSTN dual network. If PSTN is disable,it will switch to GSM automatically
	3.Calendar+5 alarm call/SMS No.+1 alarm CID call No.+1 upload SMS No.+ 10S record+ Arm Delay + Alarm Delay + Alarm E
	4.30 wireless zones + 8 wired zones, every zone attribute, name, bypass, alarm delay, intelligent door sensor function, beep in
	5.Alarm Inform Mode: PSTN Call, GSM Call, GSM SMS
Standard packing list	6.Alarm SMS include alarm zone and sensors name
One alarm host	7.Work with Contact ID protocol(alarm information, status information, AC power off and recover, Low voltage, test)
One wireless door/window magnetic contact	8.Support wireless “ding-dong” doorbell function
One PIR motion sensor	9.Alarm priority, Reset, activate and disable alarm call and alarm SMS
One English user manual	**10. it can support 4 language switch (English , Spanish , German， French)**
Two remote controllers	**11： English/Russian/Danish/Spanish/Dutch/French/German/Hungarian/Portuguese/ Italian lanugages menu**
One English user manual	Advantages: 1.touch keypad 2. internal antenna and nice look. 3.Many language menu available 4.bigger LCD 5. ABS fire-proof material 6. **GSM+PSTN dual-network**
One AC adapter 	**GSM frequency:900/1800/850/1900mhz (also has 868Mhz verision)** **Price(USD)Sample:FOB ShenZhen$85** **10 to 50sets:$84** **51 to 100sets :$83** **51 to 200 sets:$79**

Picture	**Model Number:GS-G110E (900/1800,850/1900mhz)**

GS-G110E
99 wireless zones GSM alarm panel can be used as a handfree phone
Each zone name can be modified by user
Two way intercom feature
English/Spanish/French voice prompt are available.

	1.99 wireless zones GSM alarm panel can be used as handfree phone
	2.Each zone name can be modified by user
	3,Voice prompt for all operations; Two way intercome feature.English/Spanish/French voice prompt are avaliable
	4,3 groups of timely arm and disarm;
	5,Can store 6 phone numbers: when alarming, system will make alarm call to these numbers automatically;
	6,Can store 3 SMS numbers: when alarming, system will send alarming SMS automatically;
	7,10-second automatic message recording;
	8,Built-in artificial intelligent digital voice announcer;
	9,Built-in artificial intelligent English message;
	10,Users can make calls by using keypad on alarm panel, just like a telephone;
Standard packing list	11,One-key-control function: Out Arm, Home Arm, Remote Arm;
One main unit	12,SOS, fire, gas, door, hall, window, balcony, and boundary places alarm;
One wireless door/window magnetic cor	13,Real-time, delay, 24 hours, bypass defense zones programming function;
One wireless PIR sensor	14,Wireless coding: easy to add additional wireless accessories;
Two remote controllers	15,Remote control Arm, Disarm, Monitor, and Intercom by phone;
One wired siren	16,Built-in AAA NI-HI rechargeable battery: make alarm when power off;
One AC adapter	17,Comply with CCC safety standard and GB12663-2001 national standard.
Technical Parameters	**Price (USD) Sample: FOB Shenzhen $60**
Wireless frequency:315MHZ,2262/4.7M	**10 to 50sets :$58**
	51 to 100sets :$57
	150 to 200sets:$55

Picture	**Model Number:GS-G82 （Touch Screen Made by acrylic） (900/1800,850/1900mhz)**
	1. Touch Screen 2. LCD Screen displays Date, Day of the week, Time, and current Armed Status 3. Supported Languages: Simple Chinese\ Traditional Chinese\ English\ German\ French\ Russian\Danish and more. 4. 29 wireless zones (Each zone supports up to 4 sensors) and 2 dedicated zones for remotes (Supports up to 4 remotes or wireless keypads per zone)

5. 8 more wired zones(Optional), add US $2.5 cost

6. Intelligent logic analysis technology, corresponding zone and sensor name can be displayed.

7. Support seperated wireless doorbell, and will sound chord “Ding-Dong” from alarm hot panel when you press doorbell button.

8. Can dial up to 5 phone numbers in sequence

9. Record up to a 10 second greeting for the auto-dialer, Then play the greeting back.

10. Arm\ Disarm the system by: SMS, Main Host(Keypad), Wireless Keypad, Keychain Remotes, or even remotely by phones. (PSTN alarm don’t support SMS)

11. Available in both AC\DC with Low-voltage Indicators

12. Learning sensors to alarm host, very easy operation.

13. Store up to 100 alarm records(alarm history) and 100 arm\disarm records(arm/disarm operation history)

14. Support CID uploading to CMS(Center monitoring Station) , can user our GSM CID connector to have this function

15. Non-volatile chip, information stored automatically when off power

16. Check door\window status automatically (This is when the system is disarmed only, if a door is opened, it will sound fast “bi bi bi”)

17. AC FAILURE NOTIFICATION to CID Center monitoring station（Optional function）

18. Support wireless “ding-dong” doorbell function (Optional)

Standard packing list

One main unit

One wireless intelligent door sensor with

One intelligent wireless PIR sensor(rech

Two remote controllers

One strobe siren(more than 80dB)

One AC adapter

One English user manual

Technical Parameters

1 Working power: AC=100~230V,

2.Static current:<50mA (when not charg

3.Alarm current:<500mA

4.Built-in Li-Ion backup battery: 3.7V 1200mAH(rechargeable), Standby: around 16 hours,Full charging time: 12 hours

GSM frequency:

GS-G80AE GSM900/1800MHZ

GS-G80AEA GSM850/1900MHZ

Price (USD) Sample: FOB Shenzhen $93

10 to 50sets : $89

150 to 200 sets : $84

Note:GS-G80AE has 868mhz version

Picture

Model Number:GS-80AE (900/1800,850/1900mhz)

Remark:

The features of GS-80AE is the same as GS-G82,only appearance is different.

Price (USD) Sample: FOB Shenzhen $85

10 to 50sets : $83 51 to 200 sets : $79

Standard package include : one alarm panel , one PIR sensor ,
one Door/window sensor, two remote controllers , one wireless siren

Picture	Model Number:GS-G80BE (GSM and PSTN dual network) (900/1800,850/1900mhz)
	Remark: The difference between GS-G80AE and GS-80BE **GS-G80AE is GSM alarm system GS-80BE is Dual-net GSM+PSTN alarm** All the functions and specification are same except for above
	Price (USD) Sample: FOB Shenzhen $93
	10 to 50sets : $89
	51 to 200 sets : $85
	Note:GS-G80DE has 868mhz version

Picture	Model Number:GS-G80CE (GSM wireless alarm) (900/1800,850/1900mhz)
	1.Touch keypad, blue backlights; blue LCD displays Date, Day of the week, Time and current Armed Status; 2. Concise icons guided LCD display. Suitable for every market all over the world. 3. 2 /4 Band GSM， Supports phone call alarm and SMS alarm at the same time, SMS includes zone number and alarm event type. Automatically switch to GSM dialing when telephone line is cut. 4. 15 wireless zones (Each zone supports up to 4 sensors) and 1 dedicated zones for remotes (Supports up to 10 remotes or wireless keypads per zone). Supports 2 wired zones (optional). 5.Can preset up to 6 phone numbers and dial in sequence. Every mobile phone number can be set for phone call alarm or SM 6. Intelligent logic analysis technology, corresponding zone number can be displayed on LCD screen. 7.Record up to a 10 second greeting for phone call alarms which can be heard when answering the alarm call. 8.Arm\ Disarm the system by 5 ways: SMS, Main Host (Keypad), Wireless Keypad (optional), Keychain Remotes, and phone calls. (PSTN alarm don't support SMS) 9.Available in AC\DC, Low-voltage alerts. 10. "One-Key" arm？, studies sensors to alarm host, very easy operation. 11. Non-volatile chip, information stored automatically when off power.

12.Door\window status self-check and “Ding Dong” doorbell can be completed as optional functions.

13.8 zone electrical appliance control and 8 groups of scene control can be completed as optional functions.?

14.Support CID uploading to CMS (Center monitoring Station) .can user our GSM SMS CID connector to complete this functio

15.Disconnection alarm, auto priority to occupy the telephone and monitoring function to hear what is happening.

16. Built-in Lithium backup battery, perfect system self-check, alerts of landline phone cable cut, no SIM card, alarm host low power,

Standard packing list

One main unit

One wireless door/window magnetic cor

One wireless PIR sensor

Two remote controllers

One wireless strobe siren

One AC adapter

Specification of main unit:

1 Working power: AC=100~230V,

2.Alarm current:<500mA

3.Built-in Li-Ion backup battery: 3.7V

4.1200mAH(rechargeable), Standby:

16 hours,Full charging time:12 hours

Packaging Method	Packaging Dimension and Weight	
1 set of GS-G80CE into one gift box	**Gift Box:**	G.W.:1.2kgs
		Size:290(L)*270(W)* 85(H) mm
5 gift boxes into one carton.	**Carton:**	G.W.:6.7kgs
		Size: 445(L)*305 x 290 (H)mm

Price (USD) Sample: FOB Shenzhen $85

10 to 50sets : $82

51 to 200 sets : $78

Note:GS-G80CE has 868mhz version

Picture

Model Number:GS-G70E (GSM wireless alarm) (900/1800,850/1900mhz)

1. Color LCD screen, keypad with blue light

2 ..Support ADEMCO Contact ID protocol uploading to CMS(Center monitoring Station) , can user our GSM CID connector to have this function

3. Maximum 30 wireless zones,support 8 more wired zones, add US $2.5 cost .

4. LCD display with calender, available in English/Chinese/Germany/Russian/French and Japanese etc. Non-volatile chip, information stored automatically when off power.

5. One-key arm operation,With learning code programme method,it's easy to operate

6.Preset 5 Telephone & 5 SMS number to inform alarm

7. Switch to Backup rechargeable battery when the power is failure or cut by intruder.

8. 5 methods Arm/Disarm: Remote Controller, Host Keypad, Remote Keypad(options),Telephone/Mobile phone and GSM SMS

9. Internal & external antenna for your options

Standard packing list

One main unit

One wireless door/window magnetic cor	10. It will use GSM and has capability for land line where GSM is not possible
One wireless PIR sensor	11. External power failure and external power return informed via SMS
Two remote controllers	12. 2^{20} wireless address encode reduce the rate of same code greatly.
One Wireless strobe siren	13. Learning code wireless accessories.
One AC adapter	14. SMS control & program
One English user manual	15. SMS modifies wireless zones name.
	20. Entry delay alarm.
Specification of main unit:	22. Internal MIC or external high sensitivity MIC (optional)
Output power: DC12V	25. Working with monitoring center, such as police station
Input power: AC110V to 220V,50Hz or 6	**GSM frequency:**
Working hours of standby Battery(DC8.4	**GS-G70E GSM900/1800MHZ**
More than 15 hours	**GS-G70EA GSM850/1900MHZ**

	51 to 200 sets : $79
	Note:GS-G70E has 868mhz version
picture	**Model Number:GS-60E(900/1800,850/1900Mhz)(PSTN＆GSM dual network)**
	1.An advanced and reliable communication technology, dialing alarm
	2.8 wired, 99 wireless defense zones
	3.Remote control intelligent code, up to 5 wireless remote controls
	4.LCD display, built-in calendar clock, operates easily
	5.Full voice prompts, installation setting and daily operation are more easily
	6.Arm and disarm, and siren on/off are could be controlled by SMS instruction
One package includes: One main unit One wireless door/window magnetic sensor One wireless PIR sensor Two wireless remote controllers One mini siren	7.SMS prompt of low power，SMS prompt of AC power broken and recover
	8.Built-in intercom speaker, can achieve duplex intercom function
	9.Built-in wireless transmitter module, wireless siren and smart home system can be linked
	10.Preset 2 groups timing arm and disarm time

One mini siren One AC adapter One English user manual	11.Calls out up to 6 phone numbers to notify you of abnormal conditions
	12.Call out up to 2 phone numbers to notify the receiving alarm center
	13.Up to 2 SMS numbers to notify you of abnormal conditions
	14.10 seconds artificially recording message， All arm and disarm function could be realized by one key
	15.Built-in digital voice, voice broadcast alarm situation automatically
	16.Multiple defense zones including instant, delay, 24 hours, bypass // 40 alarm events can be recorded
	17.Wireless coding: adding new accessories convenient, safe and efficient
	Price (USD) Sample: FOB Shenzhen $ 68
	10 to 50sets :$65 51 to 200 sets : $62
picture	**Model Number:GS-T01A(900/1800,850/1900Mhz)(PSTN wireless alarm)**
	1. LED display, 15 wireless zones, can work with up to 60 wireless sensors (each zone supports up to 4 sensors)
	2.You can connect wired & wireless PIR sensor, door/window contact, smoke detector, gas leakage detector, glass break sens
	3. With 13 working LEDs and control keyboard on the mainframe
	4.You can record your voice in the mainframe in advance and will call you or the police and play the voice while alarming.
	5.Can Auto-dial 6 phone No. while alarming
	6.You can call the mainframe at any time and listen what happened in the alarm area, and you can arm/disarm and program the system by control keyboard on the mainframe & phone
One package includes: One main unit One wireless door/window magnetic cont1a1c.t When the system alarms, it can report and follow up the latest alarm zones. One wireless PIR sensor Two remote controllers One strobe siren One AC adapter One English user manual	7..Support ADEMCO Contact ID protocol uploading to CMS(Center monitoring Station) , can user our GSM CID connector to h
	8.With voice reminder & password protection while the system is working
	9. Remote monitor and check the alarm zones by phone.
	10. Arm mode: immediate arm, delayed arm and partial arm
	11. Can set the ring times of alarm mainframe. When there is coming call, the mainframe can get through it automatically after checking
	12. Can choose to set/cancel the alarm function of cutting telephone line.
	13. Switch to Backup rechargeable battery automatically when power is failure or cut by intruder.
	Price (USD) Sample: FOB Shenzhen $45

	10 to 50sets :$42 51 to 200 sets : $39
Picture	**Model Number:GS-T01B(900/1800,850/1900Mhz)(PSTN wireless alarm)**
	The difference between GS-T01A and GS-T01B: GS-T01B has following extra features:
	1.LCD display
	2. With year/week /time/armed status
	3.Available to display in the following languages: English, Chinese, German, Russian, French, Japanese etc.
	4.30 wireless zones, can work with up to 120 wireless sensors (each zone supports up to 4 sensors)
	5)Support ADEMCO Contact ID protocol uploading to CMS(Center monitoring Station) , can user our GSM CID connector to have this function
	All the functions and specification are same except for above
	Price (USD) Sample: FOB Shenzhen $60, **10 to 50sets :$58** **51 to 200 sets : $55**
Picture	**Model Number:GS-G160E (900/1800,850/1900mhz)**
	1. Super GSM wireless signals, voice prompt, ease of use. Can install GSM phone card. 2. Allow up to 6 wireless defense zones and 4 wired zones. 3. Each can be defined as one of the 5 zone types including NORMAL, STAY, INTELLIGENT, EMERGENCY 4. Two sets of scheduled arm/disarmed function, each time disarmed you can select the included period of time and different defense zone, eliminating of need of the manual procedure, realizing the beauty of automatic controls. 5. Support configuration via phone (handset) or SMS messages to System Setup text messaging costs associated with the alarm panel. 6. 6 groups voice alarm telephone number, 3 groups for SMS messaging. External communications without electricity information will be sent to 3 groups SMS messaging and dial 6 groups voice alarm phone number.
Packing list: One alarm host (main unit) One Wireless door/window contact One PIR sensor Two remote controllers One siren(More than 110DB)	7. Support ISD automatic voice mailbox for playback message upon alert. Maximum length of voice message is 10seconds 8. Telephone (phone) long-distance telephone control for arming, disarming, monitoring, remote announcement. 9. 1 Set of normally open signal outputs, relay linkage output 10. Wireless intelligent study coding,Max 50 remote control and 50 sensors 11. Built-in Ni-Hi rechargeable battery and automatically switchable upon power failure 12. Panel integrated with newest either dual-band, triple-band, quad-band GSM/GPRS industrial graded module, stable and reliable.

One AC adapter
One English user manual
